About Me

I am an engaged and motivated web programming student, expected to graduate in June 2026.

Driven by a strong interest in technology, problem-solving, and continuous learning, I strive to develop both professionally and personally.

My previous background in pedagogy has provided me with valuable experience in responsibility, teamwork, and leadership. It has also strengthened my problem-solving skills and ability to remain calm and effective in high-pressure situations.

Languages

Swedish (native)

English (fluent)

Spanish (fluent)

Completed courses

Web Technology 1	The Web as an Application Platform
Client-side & Server-side Web Programming	Entrepreneurship & Basic Business Development
Object Oriented Programming	Object Oriented Analysis & Design using UML
Introduction to software quality	Cloud Native Applications
Software Development Project	Web Intelligence
Database Technology	
Software Testing Computer Security	

Education

Web Programming, 180 ECTS - Linnaeus University

August 2023 - Expected graduation June 2026

Preschool Teacher Program, 210 ECTS - Linnaeus University

September 2013 - January 2017

Work Experience

Preschool Teacher, Karlshamns Municipality

January 2017 - Present (current on leave for studies)

As a preschool teacher, I planned and led educational activities for children's development and learning. My role also included responsibility for planning in collaboration with colleagues, using digital tools for documentation, and following up on each child's progress.

Care Assistant, Ängelholms Municipality

April 2007 - October 2011

Working as a care assistant in elderly care, I was responsible for providing daily support and assistance. The role required strong interpersonal skills, flexibility, and the ability to handle stressful situations with professionalism and empathy.
